

Terms of Reference for the FP2020 Country Engagement Working Group Meeting on Thursday, 23 May, 2013

Background

The London Summit on Family Planning in July 2012 brought together country governments, donors and other partners around the globe to provide an additional 120 million women in the world's poorest countries with access to voluntary family planning by the year 2020. Following the Summit, the sponsoring donors (including DFID, the Bill & Melinda Gates Foundation, UNFPA, and USAID) launched follow-up actions in support of commitments made at the Summit through an initiative titled "FP2020." FP2020 supports existing initiatives and structures aimed at increasing access to family planning information and services.

At the global level, an "overall arrangement and governance structure" has been confirmed by the Reference Group, a group of 18 leaders charged with the role of providing overall strategic direction to the subsidiary Task Team and Coordination/Working Groups (Market Dynamics; Rights & Empowerment; Performance, Monitoring and Accountability; and Country Engagement). The global-level Country Engagement Working Group, co-chaired by UNFPA and USAID, is tasked with the following objectives:

- Work with existing partners to provide a supportive policy and program environment to accelerate the implementation of quality country family planning plans and programs
- Work through partners and country committees to identify needs, particularly around implementation of country FP plans; work with partners to address gaps and facilitate access to technical, funding or other assistance
- Work with key partners to identify best practices and facilitate information sharing and peer-to-peer support across countries
- Work with key partners and, in close collaboration with PM&A and R&E, monitor progress and results against the plan

As part of its follow-up on commitments made at FP2020, the Government of Indonesia, through BKKBN, will convene regular meetings of an Indonesia Country Engagement Working Group (CEWG) that provides a focal link to the global FP2020 architecture. The purpose of this group is to avoid any parallel structures and ensure one national joint programming approach to accelerate Indonesia's efforts to address unmet need, while increasing access to rights-based FP information and services within the wider context of integrated sexual and reproductive health and rights.

The Indonesia Country Engagement Working Group will be chaired by the BKKBN Deputy for Family Planning and Reproductive Health, serving also in his capacity as Reference Group member, with principal support from the global CEWG's designated country "co-focal points," i.e. the UNFPA Representative and USAID Deputy for Health. Support for regular meetings of the Indonesia CEWG will be provided by the Indonesia FP2020 Secretariat.

The Country Engagement Working Group will convene a broad range of partners representing the existing architecture of family planning support in Indonesia. The first meeting of the Indonesia Country Engagement Working Group will be convened on Thursday, 23 May, 2013, from 1-3pm at the Operational Room of BKKBN Headquarters, in the Halim 1 Building, 3rd floor.

Objectives of the Meeting

- Discuss the purpose of the Country Engagement Working Group and its articulation with the global FP2020 architecture,
- Provide a mechanism that facilitates an information sharing and consultation process as part of the national efforts to fulfill FP2020 commitments,
- Explore ways of enhancing coordination and building upon existing supporting mechanisms.

Tentative Agenda

Opening/welcoming remarks Briefing on FP2020	Co-chairs: Mr. Jose Ferraris, UNFPA Representative Ms. Rachel Cintron, USAID Deputy for Health
Country Update on FP2020	Dr. Julianto Witjaksono, BKKBN Deputy FP/RH
Discussion: Participants' Contribution to FP Programme (or topic TBD)	Moderator: Ms. Rachel Cintron, USAID Deputy for Health
Wrap up	Co-chairs

Invited Participants:

- Acting Chairperson, BKKBN
