Terms of Reference for the 5th FP2020 Coordination Meeting
Thursday, 31 October 2013

Background

The London Summit on Family Planning in July 2012 brought together country governments, donors and other partners around the globe to provide an additional 120 million women in the world's poorest countries with access to voluntary family planning by the year 2020. Following the Summit, the sponsoring donors (including DFID, the Bill & Melinda Gates Foundation, UNFPA, and USAID) launched follow-up actions in support of commitments made at the Summit through an initiative titled "FP2020." FP2020 supports existing initiatives and structures aimed at increasing access to family planning information and services.

As part of its follow-up on commitments made at FP2020, the Government of Indonesia, through BKKBN, convene regular meetings of an Indonesia Country Committee, bringing together a broad range of partners providing valuable support for family planning initiatives in Indonesia. This forum establishes a focal link to the global FP2020 architecture, and offers an opportunity to coordinate more effectively with efforts underway through the national family planning programme, as well as among each other.

The Indonesia Country Committee is chaired by the BKKBN Deputy for Family Planning and Reproductive Health, with principal support from the global designated country co-chairs, the UNFPA Representative and USAID Deputy for Health. Support for regular meetings of the Indonesia Country Committee will be provided by the Indonesia FP2020 Secretariat.

The fifth meeting will be held on Friday 1 November 2013 at 3-5 pm at the Operational Meeting Room, Halim I building, BKKBN.

Objectives of the Meeting
* To share lessons learned. current programs and future plan in implementing family planning intervention to update the partners' matrix.,
